Re: 1952 CATALOGUE

We are not issuing a 1952 Catalogue due to the fact that it would differ very little from our 1951 list except for the following few changes.

Our stock of 2½, 3 and 3½ inch plants is completely sold out. The smallest size available is in 4 inch pots in a few of the crosses with most of them in larger sizes. Also, some varieties listed in our 1951 Catalogue are almost depleted so, when ordering, please be sure to give us a second choice in the event we are unable to supply you with your first selection. Should you desire something special, we would be very glad to have you write us about it as it is quite possible that we will be able to supply your particular requirements.

Although operating costs have increased tremendously, we are not raising our prices and the general price scale for 1951 will be the same for 1952, according to size.

Our greenhouses will be open to visitors by appointment Monday through Friday from 10:00 A.M. to 4:00 P.M.

With the few exceptions as set forth our 1951 Catalogue will hold for 1952. Any special offerings available during the year will be listed in our ad which appears monthly in the American Orchid Society Bulletin.

A number of 1951 Catalogues are still available in the event you have misplaced your copy.
